Comments:

We ask that the plan to remove wild and scenic status on the Salmon drainage be tabled for now.

Very obviously there is disregard for science in the current administration. One shudders to think that it is disdain but the facts show it often is! This is purely political and it is amoral and corrupt. You KNOW this!

Climate and our environment are in the trust of your good hands and we plead you will think of generations to come who deserve and have need for the resources. These, one lost will not ever be regained.

Please resist.. and hold them safe.

Thank you.
