Comments: I don't feel that 30 days is enough time to review the information posted regarding the Foothills Landscape Project

I am concerned about the exclusion of public opinion for some 20 years? Again not enough time to really review the document, and as a recreational trail user I spend alot of time on the forest trails and feel that our user groups have alot of insight to offer.

If logging is going to take place, the user groups would have information relevant to decision making and effect to the trails/campgrounds/roads that may be impacted.

Thank you for reviewing my concerns and appreciate the opportunity to be included in the Foothills Landscape Project. Please don't hesitate to contact me if you have questions.
