Comments: I have lived in GA most of my life. I have spent most of my life in this area hiking, camping, and riding dual sport dikebikes. I still travel from SC just to ride the ORV trails that you are planning to demo or convert to something else.

This is very disheartening and saddens me that you are turning your back on an entire community that helps instill a love for the outdoors in them and their kids. I just had my first child and dream of being able to go camping and riding with him when he is older, but I won't have the ability if these ORV trails are removed. Please reconsider! These trails mean a lot to me and a lot of others in the ORV community.

Thank you,

Blake
