Title:

Comments: To whom it concerns,

I run a junior development mountain bike club, race on a women's mountain bike team and ride recreationally all over the United States. This sport is only growing as younger generation is getting into a healthy lifelong sport. We teach juniors the value of taking care of our trails with maintenance and good stewardship of the natural resources given to us. We are always in the Cohutta forest enjoying the trails there in Ellijay, Blue Ridge, Green Mountain, Aska Road, Murphy North Carolina and Pisgah National Forest. Please keep these trails open to us mountain bikers.
