Comments: I am writing to express my concern with the disregard for process that seems to be occurring with the Foothills Landscape Project. As an owner of property in Rabun County, Georgia, it is disturbing that the exact locations of Project activities will not be disclosed, and that public comments after the specific activities have been announced need not be considered. This makes it impossible to properly assess the impact of those specific activities and to provide feedback prior to those activities being undertaken. I believe the NEPA review process should be restored to the Project, as it provides citizens like me with the opportunity to provide input into the Agency's decisionmaking process.

Thank you for your consideration.
