Comments: To whom it may concern,

I live in the northern metropolis of Atlanta, Ga and enjoy riding our local trails and being a part of the outdoors. Every couple of months I enjoy taking my family up to the north Georgia mountains for a weekend hiking and bike riding trip. The challenges and scenic views of the north Georgia trails are what keeps us traveling up there. After a ride or a hike, we also look to enjoy the local restaurants and shops. Blue Ridge, Dahlenega, Eljay and Helen are areas that we visit multiple times throughout the year and the trail system is a large attraction for us. Please keep and maintain the beautiful mountain trails for hiking and biking families. Thank you
