Comments: Jake and Bull mountain bike trails are a treasure for the area. With other communities like Brevard, NC, Burke, Vermont, and Bentonville, Arkansas all seeing phenomenal growth in their towns due to the tourism and talent that these trails attract. I believe it would be short sighted to do anything that would remove this opportunity from the area and especially the town of dahlonega. It is my personal opinion that the area has a huge opportunity to use mountain biking as a way to increase tourism and business in the area while also rallying more support for the wild spaces around the area.

I hope that you will consider my opinions and the points that others bring before taking in action to decrease, remove, or alter these trails.

Thank you.
