Comments: Dear Forest Service Representative,

Our family loves this forest and we ask that you please stop this project and keep our national forests as they are and for betterment of the people and the wildlife. The extractive industries, including the timber industry have destroyed enough. Please stop burning, herbicide use, road-building, and re-routing trails for this area. Lastly, please make the public aware of such actions and where they will take place.

Thank you for your consideration.

The Hollonbeck Family
