Title:

Comments: I am very concerned about how vague details are about what and when and for how long areas are going to closed or shut down for, and if they will be rebuilt and reopen or decommissioned forever. The public should be able to continue to voice their opinions and concerns throughout the duration of the project. When details become known about what and where and when trails are being decommissioned, rerouted, the public should be able to have a say on that because areas like Jake and bull mountain are so well traveled and used by the community of outdoor enthusiasts.
