Comments: Dear Sirs,

Years ago I traveled from the East Coast to paddle the Lochsa River. The rivers are unique in terms of scenery and water quality, and deserve protection under the Scenic Rivers Act. I am writing to ask that all 89 streams that you have found eligible for Wild and Scenic designation previously remain protected in the new forest plan. I ask that you withd your proposed suitability determinations from all alternatives in your draft analysis and plan.

Thank you for considering these comments.

Sincerely,

Charles C. Walbridge
