Dear Forest Service and Alice B. Carlton, Forest Supervisor and Responsible Official, Umpqua National Forest. In accordance with 36 C.F.R. Part 219 I, I, Linda Wysong object to the project described below.

Proposed Project: The proposed action will make provision for 30.6 miles of the Pacific Connector Pipeline route to cross National Forest System (NFS) lands administered by the above-mentioned Forests. These areas affected by this decision include approximately 591 acres of lands associated with the proposed construction of the Pacific Connector Pipeline Project and approximately 186 acres associated with the proposed permanent right of way for the Pipeline Project, which would cross approximately 10.8 miles on the Umpqua Nation Forest in Douglas County, 13.7 miles on the Rogue River Siskiyou National Forest in Jackson County, and 6 miles on the Fremont-Winema National Forest in Klamath County.

The proposed action to amend the existing forest plan to create a permanent clearcut which increases fire hazards, through old growth forests, to facilitate a fracked gas export LNG project does not meet the neutral or beneficial standard. Designating Matrix land use allocations to Late Successional Reserves will not mitigate the environmental consequences from the proposed Fracked Gas Jordan Cove Pacific Connector Pipeline.]

I request that the Forest Service withdraw the recommended project and : 1. Prepare a project that meets the standards and guidelines of the existing land use management plan.

Thank you for your consideration.
