First name: marilee

Last name: dea

Organization: ONA

Title: MS.

Comments: As a Pediatric Nurse Practitioner and member of ONA and PSR I am very concerned about the future of my young patients. Allowing clear cutting is the worst direction for Forest Management in protecting lives of the next generation. Oregon is playing its part by decreasing coal, propane and even crude oil. But the greatest carbon emitter is actually the Oregon clear cuts. Oregon's number one way to decrease high levels of carbon in our atmosphere is to allow mature trees to sequester carbon and give back oxygen. For the sake of the forests and for the sake of our children, please do not violate the forest act and allow a Canadian company to cause the clear cutting of our Oregon Forests.
