First name: Earl

Last name: Frounfelter

Organization:

Title:

Comments: Because the current federal government is in the hands of corporate criminals, I am writing to oppose any change made to any policy having to do with natural resources or the environment. The criminal cabal calling itself The Republican Party, aka The Trump Administration, has proven to be completely dedicated to selling off and destroying all wild lands, all animals, the environment, clean air, clean water, forests, etc. This criminal cabal has only one goal: steal as much as fast as it can to the benefit of its rich member, with no regard to the health of the country, its people or the planet and its inhabitants.
