First name: Roberta

Last name: Clemens

Organization:

Title:

Comments: I am opposed to having a dock at the Bead Lake Boat Lunch. This area has been an attraction for illegal day campers and swimmers this past summer season. A host was never hired to manage this area. The police and the Newport ranger station were called several times for theses activities to be suspended.

If the Forest Service cannot control this area in it's primitive state, then how will they be able to take care of this area after it is developed.
