Subject: 20 yrs leasing programDear Mr. Potts,Please seriously consider the impact on our land and wildlife by allowing a 20 yr permit. Couldn't you make the contract for 10 yrs to see what the impact will be by then? Once the damage is done, it's hard, if ever, to bring it back. I have always believed there is a way in which to find solutions for both side, but only if you look hard enough.Please try.Blessings,

SusanSusan B. Schmidt, MLS, CPT
