Subject: Fracking in Sam Houston National Forest

Sir:We do not need fracking in the Sam Houston National Forest. That land was set aside for leaving the land in the natural condition that Texas was. Nature was to be preserved. I am not against the oil and gas industry but I don't believe in fracking in the Sam Houston National Forest. The nature and beauty of the forest will be lost plus the damage that fracking will do in the forest and surrounding land and lakes. Please abandon this plan.Thanks for your attention,Jeanie and Paul Rogerson
