Subject: FrackingDear Mr. Potts,

I am contacting you to object to your plans for fracking in Lake Conroe and the Sam Houston National Forest. Retirees have saved their money to retire on Lake Conroe and look forward to using their retirement on and around Lake Conroe and Sam Houston National Forest. Lake Conroe has many money-making events which will be obliterated. We would all appreciate your consideration of thinking of others. I will anxiously await the outcome of the decision made for this fracking and hope it is a positive one for all of who live and work on Lake Conroe. Thank you very much for your time and consideration.Sincerely,Betty D. Capel
