Subject: No to fracking above Lake Conroe

Dear Robert,

I am writing as a new resident of Texas for 6 months and living on Lake Conroe. With this beautiful Lake and area, and as a water resource to Houston, why would NFGT put our community in danger. This is not the place to experiment with fracking.

I formally object to fracking in the National Forest and impacting Lake Conroe, the residents, Houston's and our drinking water and the trees, animals and other flora in the forest.

Please tell me where there is a forum to engage with NFGT.

Tara Agen
