Subject: Oil and gas leases in the national forests

Mr. Potts,

My name is Prissy Hight, I am a concerned citizen of Texas. I just recieved information today about the proposed oil and gas leases in the Sam Houston National Forest and around Lake Conroe. I am strongly opposed to this, as I love the national forests, and have spent many hours over the course of many years enjoying the beauty found there. I do not understand why the forest service would allow oil and gas exploration, especially fracking. I thought the forest service was to protect our forests, not destroy them. They will not allow atv usage, but want to allow huge oil rigs and trucks? And fracking? If this is allowed to happen, the forest and the wildlife that call it home will be devastated. PLEASE do not allow this!!

Thank you for your consideration.

Prissy Hight
