Comments: I am happy to see that something is being done to address the fire danger in the forest thru timber harvests and fuel reduction. Also glad that we are working to connect some trails to public lands in Idaho.

I am strongly opposed to the decommissioning of some 140 miles of existing roads in the forest. I am a recreational forest user and very much enjoy motorized recreation, via our side by side OHV, on our public lands. After numerous knee surgeries I don't hike or ski much anymore, so my opportunities to enjoy the forest is limited to the roads that are open to ALL motorized vehicles. Please don't close/decommission existing roads and in fact, open more of the roads in this area to ALL motorized vehicles.
