Title:

Comments: I strongly OPPOSE the removal of wild horses!!

Wild horses are not ours to dispose of. They deserve to inhabit their territory freely. Furthermore, I feel it is our duty and responsibility to protect them and ensure the well being of these precious animals.

Instead of "removal" of wild horses, I urge you to utilize PZP FERTILITY CONTROL, a much more sustainable and humane option. It is available to you, as well.

Sincerely,

Heather Frenner
