Comments: buckskin saddle project

michelle.i am a landowner at kilroy bay and pinecone on lake pendorielle.have been up there since the 1960s. and am very concerned about the forrest condition and wildfire danger as nothing has bed done in years. the road into kilroy bay and pinecone is in very bad shape and not safe for personeitl if there was a fire.it takes 25 minutes to get to kilroy from granite creek 5 miles away.if the road is passable.there is downed trees and slash everywhere.the road needs totally reworked if not relocated to a much better access.we are excited to see there may be some help in sight.sincerely jim miller
