Comments: We strongly support consolidation of the existing forest orders and, particularly, the addition to restricted areas of the Cascade Lakes Scenic Corridor area between Tetherow and the Forest Service Welcome Center. The number of informal campsites in the area have increased markedly in the past two years. They ARE unsightly and it IS supposed to be a scenic byway. In addition there is no oversight of campers' fire, trash/garbage, and sanitation practices. Not all campers are knowledgeable and/or careful. The proximity to residential neighborhoods adds importance to these issues.
