Comments: I am writing to lend my full support for the subject forest order (file code 1950 dated 2/7/2020). The Cascade Lakes Scenic Highway Corridor should offer travelers an experience not blighted by the numerous primitive campsites as evidenced in the past. As an outdoor enthusiast, I often ride my bike through the area on both forest roads and single track trails. I have noticed myriad sites where trash has been left behind, campfires even though at the height of the fire season, and abandoned vehicles. There is also the issue of improper human waste disposal (toilet paper etc). I would urge you to also include a buffer along Skyliners Road since this past summer there was an abandoned mini van stuffed with trash as well as an abandoned converted bus.

Thank you for addressing this issue. If you have any questions, please feel free to contact me.
