Title:

Comments: I am writing to inform you of my support of the Camping and Campfire Order, as proposed in file code 1950 dated 2/7/2020.

As a resident of Widgi Creek, I have been very concerned about the RV and tent camping in the area designated as the Cascade Lakes Highway Scenic Views Corridor.

While walking our dog in that area last fall (before the winter closure) we found numerous instances of campfires, trash, human waste, and drug use in the areas being used by "campers".

My wife and I strongly support the proposed order to prohibit camping and campfires, in order to protect our forest resources, as well as our homes here in Widgi Creek.

Please let me know if your have any questions.
