Comments: I am writing to let you know I support the proposed changes to prohibit camping and campfires along the Cascade Lakes Scenic View Corridor. This area makes for wonderful day hiking and biking with an already established parking lot for recreational use. The government spent a reasonable amount of money already putting in a paved trail and I don't believe most hikers and bikers would like to recreate through a tent city either for esthetics or their safety.

Secondly, I believe that there's a sanitation issue with the campsites. This area has no bathrooms which means the campers use the forest as their facilities. If you hiked this area last summer you may have found it not very pleasant.

Again, I support the initiative to make the proposed changes in the Deschutes National Forest.

Thank you.
