Comments: I am writing to inform you of my support of the Camping and Campfire forest restrictions as proposed in file code 1950 dated 2/7/2020 regarding Cascade Lakes Scenic Highway. It is disturbing to see so many unsightly campsites along this beautiful stretch of highway leading into our national forest. Many times we see large campfires in unauthorized areas which could become wildfires very easily. Trash and debris along with unsanitary conditions are left after the campers leave. Camping should be allowed in existing established campgrounds or well off the main scenic highway.

Also would like to add that the gate leading into this area across from Widgi Creek should be locked 24/7. It is currently locked only for the winter months, but would deter any vehicles from entering and camping close to Century Dr as they currently do.

Thank you
