Comments: Just read the article on ktvz regarding campfires and dispersed camping. Did i understand it correct your going to make all dispersed camping illegal along the cascade lakes highway? What the hell??? I'm so fed up with you guys shutting down our forest. This is PUBLIC LAND!

Im done paying your stupid fees when all the money goes to limiting our access! Ive got news for you... we need to expand access not limit it! The boat ramps and campgrounds are over capacity and have been for years. The access roads into the lakes and campgrounds are in horrible shape with car eating potholes. How about spending some of our money on improving and expanding recreational opportunities not limiting them!

Keep public lands open!
