Comments: I am not only enthusiastically in favor of your proposed camping and campfire forest order for the Deschutes National Forest, but hope that you can expand it to more areas. I have lived in Central Oregon for 20 years and am an avid hiker. I have increasingly seen unattended campfires and evidence of campfires in banned areas such as close to rivers and lakes. I also see a lot of dispersed campers leave trash and human waste. We cannot afford to continue this way.

Thank you for your action!
