First name: Toni

Last name: Cassar

Organization: Arizona Wild Horse and Burro

Title: Director

Comments: I do not agree with the reduction in the herd or the reduction on territory. Non invasive Birth control should be used and given a chance to work before removing horses. They can be a vital part of the Arizona tourism.

America was built on the backs of horses, everything from plowing our field, bringing coal from the mines, carrying our wagons and even caring our men into battle. The wild horse is a part of the American history and they should not be reduced to a size that can be devastating to the DNA diversity.
