Comments: Please close the area off of Century on the scenic byway. We have lived here for 16 years and we have never seen such disrespect for our forest than we've seen last summer. We live at Widgi Creek and we were actually scared because of the type of people that were squatting there all summer. The campers never moved, they left their human waste, trash and were found sleeping in the Widgi Creek bathrooms. We had someone try and break in a house where a single women was living.

The Parks and Rec. who made the walking/bike paths, that is so beautiful, is marred by the constant trash, waste and scary people.

I'm building a new house in Widgi Creek and the county is charging me \$1300.00 for a permit because from Century you barely can see a small tip of my property, how fair is that!

Please fix the problem as it is a real shame to allow our forest to be treated like that. Our group of homeowners goes out every other month and clean up the trash on the road, so we are trying to do our part in the community, please help us.
