Comments: I would like to thank you for the opportunity to comment on the Greater Red Lodge Area Vegetation and Habitat Management Project. I support and believe this project would be beneficial and positive to reduce the possibility of wildland fires along the Beartooth Front. I would also like to say that with the recent announcement of RY Timber laying off of workers at their Townsend facility that this proposed project could provide jobs for Montana communities. I believe this project would be beneficial short term and long term to the people of Montana.
