Comments: It is time for Pitkin County to cease and desist with this idiot Crystal River Valley trail. The original valley resident survey indicated if it were to be built, it should be on the highway 133 right of way. Completely ignoring this, the county then unilaterally changed the original Crystal River Valley Master Plan to include placing the trail off the highway right of way "where appropriate." IT IS NOT APPROPRIATE anywhere else. It is not needed or wanted and a complete waste of money.

Please to do NOT approve this horrendous and needless impact on wildlife and wildlife habitat.
