Comments: I wanted to add my support in the subject order. Being a Widgi Creek resident for several years and noticing the increased use of the Forest property on the other side of Century drive, has me concerned. The aesthetic appearance on a scenic bi-way is impacted. We are required to pay hundreds of dollars for a scenic review if we do any modifications to our property, but just across the street we have to look at unsightly garbage, huge bon fires, decrepit campers and tents.

Lets keep this scenic drive scenic
