Comments: I am writing this to tell you to leave our wild horses alone. They are just find where they are . But I know you people don't listen to the people. You just want to see who will write you . Than you go on and throw them away. Just like no one ?? wrote you a letter. The The People are tired of this crap that you keep doing and not listening to the taxpayers who pay you your paycheck every single week or every two weeks however you get it . Leave them along they are not bothering anyone. And it Bring people there everyday to see them . This is there home . Not your home . They are been there for years . Leave them along .
