I am very upset that the wild horses have been treated so poorly ! I feel that whoever is behind the Killing of these beautiful animals should be prosecuted! The horses are just as much part of the Arizona landmarks as saguaro cactus and these cactus are more protected ! I have been a Showlow homeowner for over 15 years , as well as Arizona resident for over 35 years ! Over this time I have seen these beautiful creatures in their natural surroundings and they should be allowed more land to roam not less ! Yes the man caused rodeo chideski Fire has impacted them but the state of Arizona should be helping these horses and warning ranchers and others who are hurting them to stop harming them . We must protect these horses now before wild horses are gone !
