Comments: I lived in AZ for 20 yrs and the sight of the wild horses never ceased to thrill me. The true wild west, history, majestic beasts that bring the past to current. They are part of AZ They are what AZ is known for. The fact that money is winning out over AZ heritage is sad. I visit as often as possible and I ALWAYS look for the horses as part of my visit. I am greatly saddened that AZ is willing to leave its legacy for money and so disappointed that AZ is willing to leave behind what is left of the true wild west
