Comments: This is so WRONG!!! I was raised in Heber and have loved watching these beautiful animals all my life. It is terrible what they do to these poor creatures. They round them up and take them to stock auctions where they are sold to the 'meat man' for dog food and glue. 50-100 is ridiculous! I have seen a herd of them that have nearly 50 in it. Why limit the wild horse population at all? People love seeing these wonderful animals and come to Heber just to see them. Please do not pass this.
