Comments: Heber Wild Horse Territory....Forest Service,

Plain and simple...Please leave these horses alone. There is plenty of room for them. It seems everywhere you turn wild horses are being rounded-up, and mostly because of cattle ranchers wanting the land for grazing. They are on public land...and I would like them to stay there. I want there to be wild horses for my grandchildren to see....I want to be able to see wild horses until my dying day. There are many people like me. Please leave them be... I love them.
