Title:

Comments: It is criminal the way the BLM has removed our wild horses and Burris from public land and further ignored the will of the people by putting them at increased risk to be slaughtered. It is also criminal the way these symbols of the Americans Spirit have been recklessly and inhumanely chased by helicopters, placed into holding pens and left to stand without proper care or shelter. It is nothing short of animal cruelty to benefit the profits of a few. Another example of the rampant corruption that must be stopped.
