Comments: My name is Sandra and I have been following the removal of Wildhorses all over.

I oppose this because this land has been their home and they have their families and friend there. This removal is very traumatic for them and is only to benefit

Ranchers and other interests. No one thinks what is best for the horses. When they are removed they are held in small spaces and tramatised. Further traumatized

when moved and sold to slaughter. No one believes that all of these horses get adopted. I am not a bleeding heart liberal. I am a republican who believes that the bad treatment of horses has been taken to far. I oppose

removal. Nixon did to 1971 has been manipulated to suit other interests. NO ON REMOVAL. STOP SELLING TO SLAUGHTER. STOP KILLING OUR WILDHORSES. GET RANCHERS OFF. LEAVE HORSES BE.
