Comments: The Heber wild horses should be protected and preserved. Removals will jeopardize their long term herd viability. These horses are harming not hurting anyone. Their native habits are naturally good for the environment and help the land and help it flourish. People in the area testify that Heber wild horse herd numbers are being exaggerated by officials. Removal is unnecessary. I urge you to please do all in your power to preserve this valuable herd of wild horses instead of putting them in jeopardy by unwarranted removals. In the meantime, Heber they are being shot and killed. Please work with law enforcement and local people to catch the perpetrators as a matter of urgency. Thank you for taking my comments into serious consideration.
