Title:

Comments: Please do not allow the wild horses to be injured moved or murdered. They are a national treasure I would like my children and grandchildren to enjoy. There numbers have been dwindling due to corporate ranch greed and to put it blunt. Government officials with a personal agenda. If this is allowed to continue the wild horses will no longer exist for future generations to experience. My memory of seeing horses in the wild over twenty years ago was unforgettable and people should be allowed to experience seeing them in that environment with out risk of being rounded shot starved or death by dehydration. Our children, yours and mine deserve us to be better stewards of our land.
