Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

I have personally never visited the Hoodoo/Great Burn area, but the fact that such a wild and peacefully road less area exists is essential to my soul. We have such a short time left to save our world from climate disaster, it seems incredibly foolish to allow destruction of this part of it.

Again I have not visited.

I feel that the entire area should be protected as wilderness.

There are sensitive species that call the Hoodoo home. They should not be disturbed by motorized vehicles. Not to mention the humans who wanted to enjoy the area in peace and quiet.

I don't know these rivers, but if they are in the wilderness area they should have the W & S designation.

None to offer.

I can't imagine the time and effort that went into preparing the plan. You have my thanks and admiration.
