Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

My family and friends have packed horses and mules into the Great Burn since 1988 and have entered via multiple portals.

I have accompanied the USFS on trips and reclamation of the Greenwood Cabin sites

At Goose lake a camp was made and mules out to picket, when a cow moose decided to cross the camp. The mules would have none of that and chased the moose into the lake!

I would like the Great Burn protected by making it a Wilderness Area

As a proposed Wilderness motorized use should be excluded!

Kelly Cr. trail has been special to our family ever since we made a pack trip during a summer with our 10 year old daughter and passed through a herd of cow and calf elk that were talking to each other. Our daughter made cow sounds and the elk responded, much to her delight!

No boundary changes and no motors.....ever

Thank you USFS for involving the public in the planning and determination of a great place.
