Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

I am a woman who cares about the forest the animals and anything else that live there. people don't know how to take care of those areas. instead they destroy those places they don't care. they leave garbage destroy the land. So we need to save those areas or all will be lost for our children and grandchildren

My daughter is the head of the wilderness fountain in Mt. So know first hand how hard she fights to keep it. and the state just wants to take more land for the people. Which is wrong we as people have proven we just destroy those places for our own pleasures. How wrong is that so wrong

I agree .stop taking away more or we will have anything left to save

I believe people should not be allowed in any wilderness area in a motorized vehicle .they just don't have common sense. They wreck all .plants trees. and so much more

It's a beautiful area and does not need the foot print of man .for they can't even manage there self

Not sure I believe a lot of Mt needs to be saved .before people with big money come and try and take it all

Thanks so much for trying to save all the wilderness areas and more. don't let big corporations take it over for the money
