Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

It's important to keep these wilderness areas--important for the precious animals and the vegetation, as well as we humans. Natural areas like this are fast disappearing to the detriment of all creatures. I grew up in Montana and have lived in forests and spent many hours recreating in them. In these days, these areas are more valuable than gold.

.

Please leave this entire area alone to be managed as Recommended Wilderness.

This area should remain non-motorized. Motorized access would damage the land, the foliage, and the animals--everything that makes it a precious resource.

.

.

Many thanks go to the people who are planning ways to create forest plans to preserve our precious resources.
