Comments: We need to keep these horses as they are and leave them free....Humans have no right to interfere with wildlife, only mother nature.....the horses are not harming anyone and have been wild and free for many years before we were even born. Being they are feral horses, they are considered wildlife....and leave them that way. The trauma caused to these animals is, in my opinion, animal abuse and is considered a Felony now... Let them be... If not, then we need to start culling the human race, being it is indeed the lowest form of life on this earth...We destroy nature and the natural order of things which is WRONG... We need to stop destroying earth and all creatures that live here....
