Comments: Request to WRNF to extend comment period for the Pitkin County trail from Redstone to McClure Pass

Hi Shelly,

On behalf of the Crystal River Caucus Board, I am requesting that the comment period related to the NEPA process for the Pitkin County Recreation Trail from Redstone to McClure Pass be extended. The present 30-day comment period ends on February 20, 2020, however, the next regular meeting of the Crystal River Caucus will be held on March 12, 2020, so unless the comment period is extended, the caucus will not have an opportunity to respond to the White River National Forest solicitation for comments. A 30-day extension should be sufficient for a response from the caucus.

Thank you for your consideration.

John Emerick

Chair, Crystal River Caucus
