Comments: Redstone to McClure Pass Trail

Mr. Fitzwilliams

I live in the Crystal River Valley, residing at xxxxx. I am very much in favor of the Redstone to McClure Pass trail. I understand this will be a dirt trail that will follow existing but abandoned and historic wagon road. I believe this would be a great recreational addition to our valley, and allow users to experience an area that has been mostly inaccessible. Given the expected pitch, I would not expect there to be heavy traffic on this trail such that it would have a significant environmental or wildlife impact.

I consider this to be a most exciting proposal for a new recreational option in the Crystal River Valley. I hope to see it happen.
